

## Weatherproof Slim T5

The Weatherproof Slim T5 achieves a luminaire for two T5 lamps in the enclosure of one, making it one of the smallest weatherproof luminaires available.

An adverse location light fitting with IP66 rating, suitable for use in high humidity, damp, dust and corrosive environments designed for T5 lamps.

G.R.P. grey body, clear polycarbonate lens with internal prisms, stainless steel lockable (vandal resistant) toggle clips.

The gear tray is white powder zinc sealed steel, with retaining lanyards for ease of maintenance and safety.

Available in single or twin version of T5 lamp sources complete with electronic gear.
